

High quality welding at a reasonable price!

YS-30 Stud Matic III

Hand welder

Superior stud welding machine

Light and compact design

Convenient price

Minimal welding heat damage to base metal

Sufficient power to operate the direct puller

Washer Welding
High quality washer welding

Carbon Shrinking

Dent pulling working by using Easy Puller

Specification

Model	● YS-30
Input Voltage	● AC200-240V 50/60Hz
Maximum input capacity	● 16KVA
Control method	● Thyristor control
Supply cable	● 6m 2sq
Output cable	● 1.8m 38sq
Dimension	● 194 × 185 × 260mm
Weight	● 20Kg

Standard accessories

774-11	ST stud bit
774-5	Drawing bit
774-3	Sleeve carbon
Hex wrench set 6mm	

Optional accessory

WP-7	Quick pull
